FULL STACK DEVELOPMENT PROJECTS

Fitness and Gym Management Platform

React.js, Node.js, Express.js, MongoDB

Developed a full stack fitness platform with authentication, workout tracking, class scheduling, membership management, CRUD operations, and a responsive user interface. Deployed on Vercel.

GHM Medical Shop: Pharmacy POS and Accounting System

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Recharts, PDFKit, ExcelJS

Built a full stack pharmacy management system that runs both the counter and the books.

- Point-of-sale billing with GST and PDF bills, plus batch-wise inventory with expiry tracking and first-expiry-first-out (FEFO) stock allocation.
- Customer and supplier ledgers, a day book, and a live profit and loss dashboard covering revenue, cost of goods sold, expenses, and net profit.
- Designed 14 MongoDB data models and 67 REST API endpoints with JWT authentication, role-based access, and PDF/Excel reporting. Deployed on Vercel.

Fitness Website Platform

React.js, HTML5, CSS3, Bootstrap

Created a responsive fitness platform with trainer profiles, membership plans, service listings, dynamic filtering, animations, and mobile-first navigation.

Responsive Image Gallery and Grid System

HTML5, CSS3, Bootstrap, JavaScript

Engineered a responsive image gallery with hover effects, optimized layouts, smooth transitions, and cross-device support.

CERTIFICATION

Full Stack Web Development (MERN Stack), Entri Elevate

2025

EDUCATION

Bachelor of Commerce (Computer Applications)

KSG College of Arts and Science, 2019 to 2022. Percentage: 75%

KEY ACHIEVEMENTS
